

# Line7<sup>®</sup> Territory Wet Weather Gear

*Technically superior all-condition gear that's designed to last.*

Here at Line7 we have over 50 years' experience in the all-weather clothing industry, so who better to create the warmest, toughest, most waterproof farm gear available on the market than us. The last five decades have provided us with a wealth of know-how and expertise that is constantly growing and evolving; just like the farmers we fit out.

Our premium range, Territory, has been designed to withstand the harshest of conditions; from torrential rain to gale force winds, we will have you covered.

Territory combines the effectiveness of a hard-wearing abrasion resistant garment with a technically advanced 3-layer system providing superior breathability and 100% wind and waterproofing. The Territory fabric is constructed with a tough outer layer (high abrasion twill weave) finished with a durable water resistant surface, coated with a high tech membrane then a bonded hard wearing liner fabric ensuring maximum protection, durability and comfort for the wearer.

With numerous functional features that make each garment a leader in wet-weather clothing, the Territory range is built to perform when you need it the most.

Available in a jacket, bib trouser or over trouser, visit your local PGG Wrightson store today and ask for it by name.

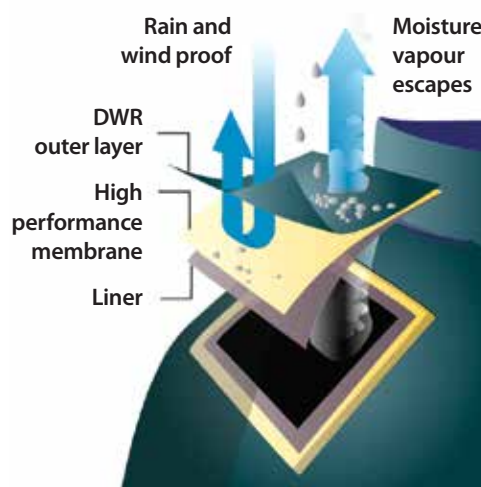

ARTICLE SUPPLIED BY LINE7

“Tough as nails. I've given it a good run for its money and it still keeps me dry and warm. I'll definitely be buying more of this gear when I finally get through the kit I've got.”

*Jono Black, Galatea, Whakatane*

### How the 3-layer system works:

3-layer fabric: 100% nylon. Twill weave heavy weight with a PU membrane.

100% waterproof: 15,000 mm rating

Breathability rating: 3/5

Strength rating: 5/5

**Layer up underneath with the Line7 100% Merino base layer range, available in four styles from selected PGG Wrightson stores.**
